DESD Feb 2026 Embedded C Programming

Assignment 3a Recursion-1

Note: every question must be implemented in two versions (e.g. Q1Ver1.c for the iterative approach, Q1Ver2.c for the recursive approach)

Q1. Write a program to implement the display and reverse display functions for integer array elements.

Q2. Write a program to implement the display and reverse display functions for a string.

Q3. Write a program to find the sum of n numbers.

Q4. Write a program to find the factorial of n.

Q5. Write a program to find the GCD of numbers.
