DESD Feb 2026 Embedded C Programming

Home assignment-1

1. Write a program to check whether a number entered by the user is even or odd.
2. Write a program to check whether a given year is a leap year or not.
3. Write a program to input marks and display the grade according to a grading scale - 90–100 → Grade A, 75–89 → Grade B, 60–74 → Grade C, 50–59 → Grade D, Below 50 → Fail
4. Write a program to check whether a number is positive, negative, or zero.
5. Write a program to generate the multiplication table of a number using a loop.
6. Write a program to reverse a given integer number. Please note this is not just printing in reverse on screen. The number must be reversed.
7. Write a program to check whether a number is a palindrome. (a palindrome is a number which reads same if written reversed.)
8. Write a program to find the largest digit in a number.
9. Write a program to check whether a number is divisible by both 3 and 5.
10. Write a program to display numbers from 1 to N using a loop.
11. Write a program to display all even numbers between 1 and N.
12. Write a program to display all odd numbers between 1 and N.
13. Write a program to calculate the sum of even numbers between 1 and N.
14. Write a program to calculate the sum of odd numbers between 1 and N.
15. Write programs to print following patterns on screen –

16. Write a program to find the smallest digit in a number.
